# SAMNVYA IMS PRIVATE LIMITED

## SAMNVYA: THE INFORMATION MANAGEMENT SYSTEM (SIMS)

*(A System for Samnvya of Information)*

CIN No.:  U72900RJ2020PTC068801

*Ref No.: SIMS/*                                              *Date:*

## Visitors Tracking Information Management System (VTIMS)

VTIMS is a web-utility for automation of Entry-Exit registers and manages the movement of people.  Similar to the Physical Entry-Exit register, VTIMS keeps track of all visitors that can be extended to staff and members with a self-check-in option.  Contrary to conventional registers, VTIMS can easily generate different reports with a single click *viz.* Daily Visitors, Periodic Visitors, Footfall reports, Historical reports, Live status, Past status, etc.

### Key Benefits

- Single click report generation
- Track records of visitors with history
- Analytics can be used for business enhancement and better planning
- Reports can be used for improved management and add-on security
- The system can also be used for staff movement analysis
- Increased efficiency due to availability of real-time view of visit aspects
- Improved accuracy due to automation
- Secures from forgery, malfunctions, and wrong practices
